ARIZONA CORPORATION COMMISSION  
DOCKET CONTROL

Arizona Corporation Commission

DOCKETED

NOV 14 2014

Mr. Bob Stump, Chairman  
Arizona Corporation Commission  
1200 W. Washington Street  
Phoenix, AZ 85007

ORIGINAL

Dear Chairman Stump and Commissioners:

My name is Guy Collison, managing partner of Eco Rehab, and I am a general contractor participating in the Arizona Home Performance with Energy Star program.

I write to urge you to oppose any reopening or revision to the Arizona Energy Efficiency Standards. Every day I see firsthand how these Standards improve Arizonan's homes by reducing their utility bill, as well as making their homes more comfortable, and a healthier environment, which also reduces medical costs particularly for those with respiratory conditions.

Since 2010, when the Standards were enacted, Arizona consumers and businesses have saved more than \$540 million, making Arizona one of the most efficient states in the nation, and a more affordable state to live in. This proposal to eliminate energy efficiency standards would reverse that success.

I am confident you will do the correct thing for Arizona, and our state's economic development by continuing to support the Energy Efficiency Standards adopted in 2010.

Sincerely,

Guy Collison

Managing Partner
